E. W. ADAMS
GENERAL PATENT ATTORNEY

FEB 18 1942

Mr. J. F. Byrne
2069 Nostrand Avenue
Brooklyn, New York

Dear Mr. Byrne:

This is with reference to the recent discussion that you had with Mr. G. M. Campbell regarding your ciphering and deciphering machine.

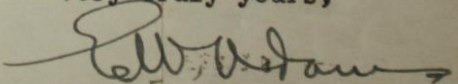

As Mr. Campbell explained to you at the time of the discussion, he would endeavor to make arrangements for you to demonstrate and explain your machine to one of the engineers. At the present time the only engineer likely to be available for this discussion will be away from the city until about March 1st, but if you will get in touch with Mr. Campbell at about that time, suitable arrangements will be made for you to meet and discuss with the engineer your ciphering and deciphering apparatus.

In view of the pressure of our activities, we should prefer to have two or three days notice to arrange for the discussion.

You, of course, understand that this discussion will be upon the basis of your agreeing to the conditions outlined to you by Mr. Campbell and set forth in the preliminary agreement which he handed to you at the time of your discussion.

For your convenience, Mr. Campbell may be reached by calling Chelsea 3-1000, Extension 115.

Very truly yours,

General Patent Attorney
