E.W. Adams  
Patent Attorney  
Bell Laboratories  
New York City

Dear Mr. Adams:

Acting on your suggestion in your letter of April 17th, I intend to call for my "demonstration apparatus" at Mr. Campbell's office on Monday, April 20th, around 4:15 P.M.

Friends are urging me to bring my system to the consideration of various organizations, such as Radio. Of course, none of these friends knows anything more about it than you did before March 16th, but one of them has proffered me a personal introduction to Sarnoff. In view of your "green light" for me to go ahead, maybe you would have a constructive suggestion to offer me in this connection?

Very truly yours,

J.F. Byrne
